ICON LEGEND

Products are manufactured using Proguard technology.

Products are able to be installed as permeable paving stones.

Use of a plate or roller compactor is recommended. If using a plate, a protective pad should be used to protect the paving surface.

The use of compaction equipment is not recommended and may void warranty.

Product falls under dry cast product warranty.

Product falls under wet cast product warranty.

R.I. Lampus
Company

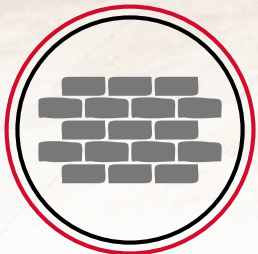

LAMPUS TRAINING CENTER

According to hardscape industry surveys, finding skilled labor is the number one obstacle we currently face.

R.I. Lampus Company is pleased to introduce our very own hands-on training center to the tri-state area.

Visit lampus.com/events-training for more information.

PRODUCT WARRANTY

R.I. Lampus Company guarantees that all dry cast wall and paving stone products meet or exceed the requirements of ASTM C-1372 for walls and ASTM C-936 for paving stones. This warranty is limited to the original purchaser for residential applications installed and maintained according to R.I. Lampus Company installation guidelines or industry standards. Damage sustained as a result of improper installation or design, chemical application, excessive loading, or other misuse is expressly excluded from this warranty. Should any dry cast product prove defective, it will be replaced without cost. Replacement labor and shipping costs are not included in this guarantee. Proof of purchase is required. Retain the warranty tag with batch information for all claims.

R.I. Lampus Company specifically disclaims any warranty relative to color, color consistency, or texture due to natural material variations. Color matching of any replacement units cannot be guaranteed. Efflorescence, a white deposit, common on concrete and masonry surfaces, is a natural occurrence and no warranty or liability is expressed or implied for this condition.

Wet cast products, including Rosetta® Hardscape Products manufactured by Omni Precast Products, Inc and distributed through R.I. Lampus Company, are backed by a lifetime warranty from the manufacturer to the original end user for products used in residential applications. This assurance of product quality is applicable where products have been correctly installed to manufacturer's specifications or industry standards. Any properly installed hardscape material manufactured by Omni Precast Products, Inc that deteriorates due to the concrete in the product not meeting the design strength specification will be replaced by the manufacturer of the product. Replacement labor and shipping costs are not included in this guarantee. Proof of purchase is required. Retain the warranty tag with batch information for all claims. The following items are not covered by this warranty: color variances and the appearance of surface stains resulting from chemical reactions such as efflorescence or differential curing, damage caused by installation, deterioration caused by de-icing salts or fertilizers, damage resulting from sub-grade settlement or movement, hairline cracks that do not affect the structural performance of the products, spalling of less than three percent of the surface area, contact with chemicals or paint, discoloration due to airborne contamination, staining, oxidation, or improper sealing.

COLOR DISCLAIMER

The colors of products shown in this catalog are to be used as representations or guidelines only. The photographic and printing processes are not fully capable of reproducing exact colors of all products. Colors may also change from production run to production run. All products are not warranted as always available in all locations, and R.I. Lampus Company may change, amend, add, or discontinue any product shape or color at the sole discretion of R.I. Lampus Company with no prior notification. Not all colors are available in all shapes. Check with the sales department for availability.

To assure random color distribution, it is recommended that individual blocks be mixed from different pallets on the job site. Actual product colors may vary slightly. We recommend that products be viewed at your local distributor location. Special order colors are available upon request.

PRODUCT MAINTENANCE

The face of retaining walls can be stained due to mineral and moisture laden soil in the backfill area as well as from the environment. Cleaners and sealers are available for routine wall maintenance.

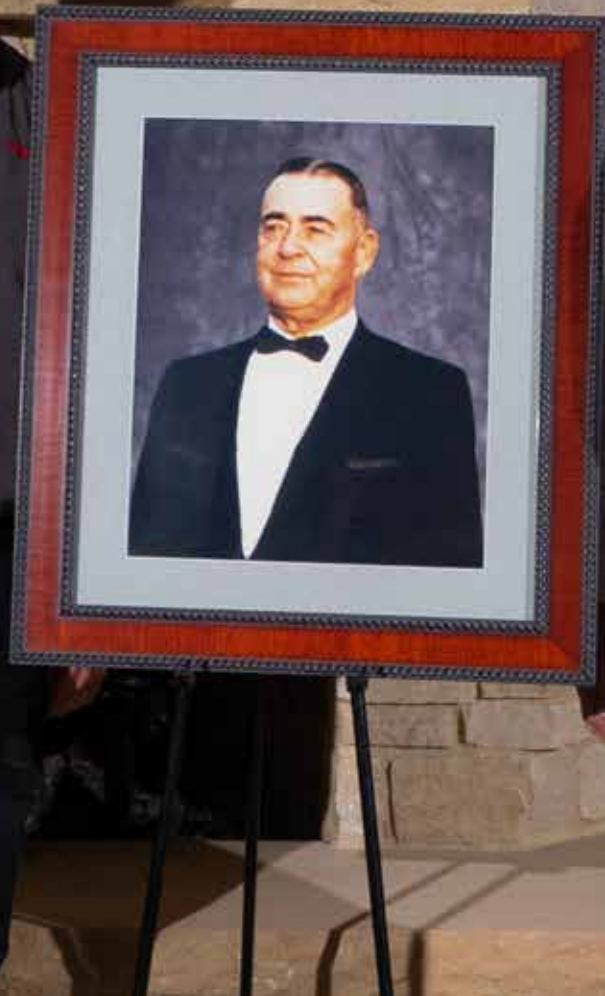

Cleaners and sealers are available for surface enhancements and protection when necessary. Any concrete products used for stair tread applications may require a protective sealant to resist adverse effects of de-icing agents.

Snow can be shoveled or plowed from pavers as readily as other pavements. High strength, low absorption R.I. Lampus Company pavers are more resistant to de-icing salts than ordinary concretes, but they can still be damaged by intense applications. Sealers will help to protect the surface.

LAMPUS GENERATIONS

FIRST GENERATION: Brothers Ralph and Harry Lampus opened the R.I. Lampus Company in Springdale, PA in 1924, producing and selling cinder block to the growing community around Pittsburgh. Despite the depression, Ralph kept the company operational on his own through the late 1930's and as the company entered the 1940's. The introduction of new high-capacity machinery enabled R.I. Lampus Company to produce more block at a lower cost per unit, launching a rapid growth phase through its incorporation in 1952.

SECOND GENERATION: Ralph's son Donald, after working in various tasks at the plant since the age of nine, joined the company full time in 1962. By the time Donald joined, R.I. Lampus Company was the largest producer of concrete masonry units in the Tri-State area, and soon would expand its manufacturing expertise into other untapped markets, like hardscape products (Interlocking Paving Stones and Segmental Retaining Walls) and opening one of North America's largest Alloy Briquette plants.

THIRD GENERATION: Donald's son, Don Jr. joined the company full time in 2007 after a career in Top Fuel Drag Racing and running the Doren Inc. hardscape plant. Since joining the company full time, Don has helped take R.I. Lampus Company to the next level, expanding its concrete block operation with 3 more production facilities, acquired agreements with many clay brick companies to expand the company's reach in the building industry, and opened the first R.I. Lampus Company retail hardscape store in Erie, PA.

FOURTH GENERATION: We now begin to look toward the future with the addition of Don's nephew Drew to the company. Drew joined the company full time in 2018 and is well on his way to learning the ins-and-outs of every aspect of the company's operation.

The R.I. Lampus Company is proud that through a combination of determination, high standards, and commitment to continuous improvements, it has made a name for itself by providing the best service and the best products to its customers for over 94 years.
